## MEMORANDUM

**DATE:** May 20, 2013  
**TO:** All Engineers  
**VIA:** Judy Wortkoetter, County Engineer  
**FROM:** Sarah Tillinghast, Administrative Assistant  
**SUBJECT:** 2013 Land Development Division Design Manual

The 2013 Greenville County Land Development Division Design Manual has been revised and updated to address the new General Construction Permit requirements. These changes have been added to our website, [www.greenvillecounty.org/land\\_development](http://www.greenvillecounty.org/land_development) under a new 'Design Manual' tab. In addition, modifications have been made to allow easier access of the manual by the design community. Links have been individually set up to reference Figures for each chapter. You can now click on each appendix and download the needed data. Specifications and details in both .pdf and .dxf formats are available in table format by selecting the Appendix links.

We hope these changes will be helpful and make the Design Manual more user-friendly.

If you have any questions or issues, please send an e-mail to [stillinghast@greenvillecounty.org](mailto:stillinghast@greenvillecounty.org).
