LANDFILL GAS, AIR QUALITY AND
DESIGN CONSULTING SERVICES
RFP# 89-06/14/16**

I. Introduction

The County of Greenville is seeking proposals from firms to provide Landfill Gas (LFG) and Air Quality data evaluation, reporting, design, permitting and miscellaneous regulatory consulting services for the Twin Chimneys and Enoree Landfills in accordance with the requirements of Greenville County's most current Title V Operating Permit, Greenhouse Gas Reporting Rule and any other regulatory requirements for the sites that may be forthcoming during the term of this contract.

II. Background

Enoree Landfill

The Enoree Landfill is located in eastern Greenville County, 1311 Anderson Ridge Road, Greer, SC 29651. The site includes Phase I, a municipal waste landfill (21 acres), which was closed in 1994 and was capped with a Geosynthetic Clay Liner (GCL) and one foot soil liner. Phase II, a municipal waste landfill (70 acres), is closed as well and was capped with a geosynthetic liner system. Both Phases have active gas wells which supply methane for the operation of two Caterpillar engines. The gas system is maintained and operated by Enerdyne Power Systems. The site is not subject to NSPS requirements nor does it have a Title V permit. Reporting is limited to Greenhouse Gas Reporting Rule compliance.

Twin Chimneys Landfill

Twin Chimneys Landfill is located in southern Greenville County, 11075 Augusta Road, Honea Path, SC 29654. This is an active landfill site which began operation in 2007 with both Class II and Class III disposal areas. Class II disposal occurs in Unit 2 (57 acres) while Class III disposal is in Unit 1 (45 acres). Additional Class III Units 3-7 are permitted for future use. Construction of Unit 4 (198 acres) will begin in 2016.

The site has an existing Title V Air Permit dated July 1, 2016. A Tier II NMOC test was conducted in March 2015, which demonstrated the site will not be subject to the NSPS requirements to install and operate a landfill gas extraction system for at least five years. The first phase of an active gas collection system has been installed in Unit 1. The system includes 28 vertical wells and connection to 36 leachate cleanouts. Additional collection wells will be installed as filling continues in Unit 1. The collected gas is flared with plans for a gas-to-energy plant to be constructed (by others) within the next 18 months.

III. Scope Of Work

The County, or their designated representative, will provide to the Contractor field data related to the operation of the landfill gas collection systems, including landfill operational data, LFG system data, blower/flare system data, LFG monitoring data, and waste filling rates. The County will also provide the Contractor other related data such as historical documentation, site drawings, permits, etc. if such data is available and relevant to the scope of work.

Routine Contractor Services:

1. Preparation of two semi-annual Title V Periodic Reports for Twin Chimneys.
2. Preparation of Annual Title V compliance Certification Report, due in August for Twin Chimneys.
3. Preparation and electronic submittal of Greenhouse Gas reports due in March for both Enoree and Twin Chimneys.

Miscellaneous Consulting Services

The Contractor will provide miscellaneous consulting services related to landfill gas management including data evaluation, reporting, modeling, permit preparation, and regulatory evaluations. These services may include, at minimum, meetings with interested parties, preparation of graphs, maps or tables, evaluation of historical data, LFG modeling, design reviews, services related to negotiations and /or development of LFG beneficial use projects, evaluations of SCDHEC and EPA regulations related to air quality and LFG or as otherwise requested.

Deliverables:

Gas Collection and Control System (GCCS) Design and Construction Documents: A GCCS design and permitting will be prepared for submittal to SCDHEC for the remaining Units. Consultant will coordinate the design with the beneficial use contractor. Design will include cost estimates, specifications and construction bid documents for the first phase of Unit 4. Consultant shall be available to answer questions from potential bidders and may be asked to assist with assessment of received bids. Consultant will provide construction assistance as needed.

Draft Reports: The Contractor will prepare and submit draft reports, including transmittal letters, reporting forms, narratives, and all required supporting information and calculations no later than fourteen (14) days prior to each submittal deadline. The County will provide comments on the draft reports and the Contractor will prepare the final reports based on those comments.

Final Reports: Comments from the County will be addressed and final reports will be submitted no later than three days prior to each submittal deadline. One copy of each report will be provided to the County.

Miscellaneous: Provide miscellaneous information related to the landfill gas management systems along with preparing letters/reports in response to inquiries regarding the air quality compliance status.

All reports shall be submitted to:

Ms. Marcia Papin, Solid Waste Manager
